About

Set in stone — F37 Wicklow takes inspiration from Gaelic letter carvings by the remarkable sculptor Michael Biggs.

The starting point for F37 Wicklow is Irish sculptor Michael Biggs' intricate letter carvings on the Arbour Hill Memorial in Dublin. Biggs' 'Gaelic Alphabet' mixes wonderful geometric shapes and F37 Wicklow reflects this by combining sharp, triangular serifs and diamond tittles with circular forms. It's a typeface driven by visual contrast.

Biggs used slightly different letterforms to distinguish the Gaelic and English texts on the memorial. We've mixed things up a bit, transferring some of the pleasing shapes from the Irish Uncial alphabet to our Roman alphabet — for example the curved 'bay' (b) and 'ell' (l).

The graphic, triangular serifs make F37 Wicklow a great choice for branding as well as newspaper and editorial headlines. All the weights come with matching true italics and stencil weights.

18 Point

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged.
